

# There are 50 different types of Startrite bandsaws

We make vertical saws to straight, angle or contour saw every material from wood and plastics to the toughest types of space-age heat-resistant steel. Horizontal bandsaws are offered with capacities up to 16 inches diameter and with manual or fully automatic feed systems.

Twenty-five years' experience in band machinery techniques and manufacture mean there's a Startrite tool to solve your cutting problem.

## STARTRITE

**Britain's largest suppliers  
of bandsaws.**
