

STARTRITE

Horizontal bandsaw machines

Best and most reliable in our metal sawing machines

STARTRITE 10 inch Diameter

H225

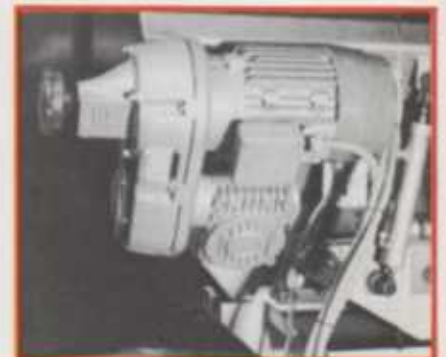

10 inch diameter capacity budget priced machine. Designed both for production and intermittent sawing of bars, tubes and sections.

Features:

- Solid carbide blade guides with rollers.
- 1 inch wide blade.
- Easy blade loading from top.
- Quick acting 45° vice with calibrated quadrant.
- Highly efficient blade brush.

Quick Action Vice (H250M)

Steplessly variable speed 1.5Kw motor.

MODEL	H225	Standard equipment includes: Full coolant installation Adjustable material end stop Blade guards Bi-metal Bandsaw blade Operators manual Optional equipment: Set of castors Material support stand In-feed roller table Flushing hose kit Discharge tray Steplessly variable blade speeds
Capacity (see chart)	10in diameter (250mm)	
Totally enclosed motor	2hp (1.5kw)	
Blade	1in x 132in x 0.035in	
Blade speeds No. Range	5 50-80-125-200-300rpm	
Bed height	25in (635mm)	
Band wheel dia.	14in (355mm)	
Coolant tank capacity	5 gals (23 litres)	
Net weight	828lb (375kg)	
Shipping weight	913lb (414kg)	

Capacity Horizontal Bandsaws

H250M

10 inch diameter and 9in x 18in rectangular capacity machine with heavy cast vice bed. Suitable for production sawing of bars, tubes and larger structural sections.

Coolant application through both guides.

Easily adjusted head feed.

Blade guards easily removed for blade changing.

Steplessly variable blade speeds standard on H250M.

Five blade speeds (H225).

Blade guides (showing angle setting).
