

# STARTRITE

## Horizontal Bandsaw Model H330M

The finest and broadest range of metal sawing machinery

## CONSTRUCTION DETAILS

The Startrite H330M Horizontal Bandsaw provides a cost effective way of cutting large sections, profiles and steel tubes of up to 13" in diameter.

Built to withstand the rigours of heavy duty production sawing, the machine is fitted with both rapid clamping and quick material release facilities. A 2hp motor with a variable speed drive provides blade speeds 54-305 fpm.

The 1/4" wide blade travels through roller bearings for accurate alignment and solid carbide guides for precise lateral control.

## STANDARD EQUIPMENT

- Full coolant installation.
- Adjustable material end stop.
- Quick release and rapid clamping vice.
- Blade guards.
- Bi-Metal Bandsaw blade.
- Stepless variable blade speeds.
- Operators manual.

## OPTIONAL EQUIPMENT

- Set of castors.
- Material support stand.
- In-feed roller table.
- Flushing hose kit.
- Discharge tray.

## TECHNICAL DATA

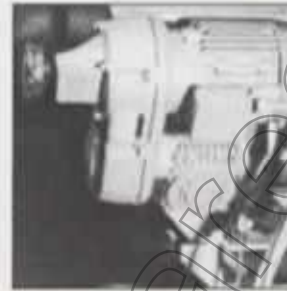

Model	H330M
Capacity (see chart)	13" diameter (330mm)
Totally Enclosed Motor	2hp (1.5kw)
Blade	1/4" x 150" (32x3810mm)
Variable Blade Speeds	54-305fpm (16.5-93m/min)
Bed Height	28" (710mm)
Bandwheel Dia.	16" (404mm)
Coolant Tank Capacity	7 gals (32 litres)
Net Weight	968lbs (440kg)

Vice (showing angle setting).

Carbide blade guides with rollers & blade cleaning brush.

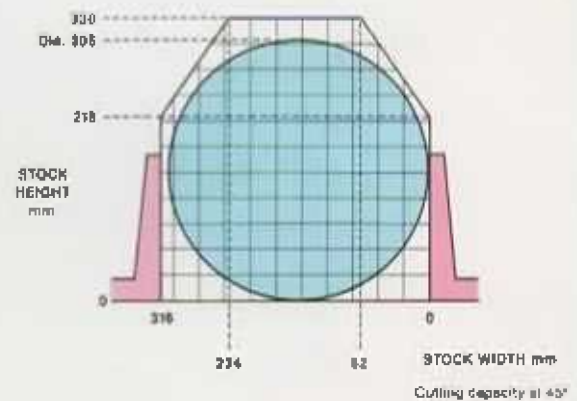

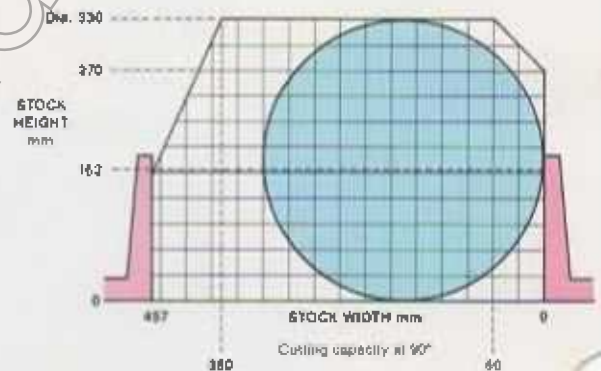

Stepless variable speed 2hp (1.5kw) motor.

Quick release vice.
